## **PAS Technologies Appoints Brian Willett to Lead Military Business Unit**

**Kansas City, MO., – Janury 29, 2010** – PAS Technologies today announced that Brian Willett has joined the company in the newly created position of Vice President, Military Services and Business Development. Brian is responsible for leading the growth and implementation of PAS Technologies’ global military strategy that interfaces with the U.S. and foreign government agencies in support of its Maintenance, Repair and Overhaul (MRO), supply, and logistics activities. He will report to Phil Milazzo, Executive Vice President Sales & Marketing.

*Brian Willett*

Prior to joining PAS Technologies, Brian served five years at BAE Systems Inc., as Director of Commercial and International Programs for the Mobility and Protection Systems business unit and most recently as Director of Business Development Operations for the Security and Survivability line of business at BAE Systems Inc. Previously he was Regional Sales Manager for Landmark Aviation Services, has served as Director of Caravan Sales for Cessna Aircraft Company, and was Chief Instructor at McDonnell Douglas Aerospace Services Company. He is a retired U.S. Air Force Command Pilot serving 20 years as a pilot in various capacities in both the U.S. Army and the United States Air Force. He earned a Master’s degree of Applied Science in Aviation Management from Embry-Riddle Aeronautical University and a Bachelor’s degree of Applied Science in Aviation Operations Management from Troy State University.

## ***For Immediate Release***

“Brian’s 35 years experience in key positions in the private sector and the U. S. Military provides him with a rare and extensive combination of defense and aerospace knowledge with broad-based success in global business development, marketing, and program management making him the perfect choice to lead our Military Services Business as it supports the needs of our military clients,” said Phil Milazzo, Executive Vice President Sales & Marketing.”

Robert Weiner, President and CEO of PAS Technologies said, "PAS Technologies' is on an aggressive growth path, and strong, visionary leadership across all business units is essential to our strategies for success. Brian's vision, knowledge, and industry background will help PAS Technologies further capitalize on our expertise, financial strength and global reach. His leadership and energy will enable us to take advantage of exciting expansion opportunities we foresee for the near future.”

PAS Technologies Inc. ([www.pas-technologies.com](http://www.pas-technologies.com)) is a privately held corporation headquartered in North Kansas City, Missouri specializing in providing cost-effective repair and overhaul solutions for the aerospace, oilfield, and industrial markets. By using innovative and proprietary high-technology repair processes, along with repair solutions licensed from OEMs, the Company saves its customers from having to purchase costly replacement parts. The broad range of components serviced includes gas turbine engines, critical airframe parts, gates and seats used in oil fields and industrial components used in other high-wear, high-heat, and corrosive environments.
