PAS TECHNOLOGIES APPOINTS CATHY DEVERS LOGISTICS TECHNICIAN

Kansas City, MO., – February 21, 2007 – PAS Technologies Inc., today announced the appointment of Cathy Devers as logistics technician reporting to Peter Mayer, director, procurement and logistics of the newly formed business unit that is focused on customer satisfaction and positioning the company for growth.

Dever will oversee the day-to-day activities of corporate logisticis' mission to provide economical freight handling services for PAS Technologies as well as for customers and suppliers alike using contract agreements with preferred carriers. The business unit's goal is to assess an individual customer's needs, then provide solutions that offer the customer significant efficiencies and lower operating costs providing a range of services and capabilities including integrated logistics support.

She began her career with PAS Technologies as customer service representative in 1999. Devers is currently pursuing an undergraduate degree at Park University, Parkville, Missouri in business management.

PAS Technologies Inc. (www.pas-technologies.com) is a privately held corporation headquartered in North Kansas City, Missouri specializing in providing cost-effective repair and overhaul solutions for the aerospace and industrial markets. By using innovative and proprietary high-technology repair processes, along with repair solutions licensed from OEMs, the Company saves its customers from having to purchase costly replacement parts. The broad range of components serviced includes gas turbine engines, critical airframe parts, gates and seats used in oil fields and industrial components used in other high-wear, high-heat, and corrosive environments.
