PAS TECHNOLOGIES NAMES DENNIS BURR AS VICE PRESIDENT OF GLOBAL ENVIRONMENTAL HEALTH, SAFETY AND SECURITY

Kansas City, MO., – August 2, 2007 – PAS Technologies has named Dennis Burr as vice president of global environmental health, safety and security effective immediately. Burr reports to Robert Weiner, president and chief executive officer of PAS Technologies. Burr is responsible for the EHSS systems directing world-class environmental, health and safety excellence across the global PAS Technologies network. In his new expanded role, he is now responsible for security guidelines for employee travel and plant facilities, serving as Chief Security Officer of the company.

Dennis Burr

Formerly, Burr served as director of safety, a role which included prevention of safety risks to employees and the public as well as the enhancement of compliance with Federal Aviation Administration regulations. Burr helped create and direct numerous safety programs, including employee wellness, clear-cutting policies, and employee training. Prior to joining PAS Technologies, Burr was divisional safety and security manager for Kerry Ingredients located in Kansas City, Missouri. And prior to that, Burr had been safety and environmental manager at ConAgra Foods for five years and environmental safety manager for the Department of Defense for eight years.

“Dennis is a 19 year veteran with a track record of creating innovative programs and delivering results,” said Weiner. “Under Dennis’s leadership, we will continue to build on our track record of safety improvements, focus of comprehensive safety/environmental excellence and achieve our goal of zero incidents across the company.”

A native of Muskogee, Oklahoma, Burr received a bachelor of science degree in environment and safety from Northeastern State University of Tahlequah, Oklahoma. He is a masters of science in engineering management graduate candidate at the University of Kansas, Lawrence, Kansas. Dennis is an accredited Registered Safety Manager (RSM) who has met education and experience standards and has demonstrated by examination the knowledge and skills that applies to safety professionalism.
