GREGORY YOST NAMED GENERAL MANAGER FOR PAS TECHNOLOGIES

Kansas City, MO., – October 9, 2006 – PAS Technologies Inc., has named Gregory Yost to the position of general manager of the Tulsa facility reporting to Jim Andrews, vice president operations.

"Greg brings a very strong and broad-based knowledge of the aviation industry," said Andrews. "I am confident his experience and leadership will help our Tulsa's highly skilled operations teams consistently exceed customer expectations while achieving our growth and profitability goals for 2006 and beyond." Yost replaces Ken Beard who has left PAS Technologies in order to pursue other areas of interest.

Before joining PAS Technologies, Yost held various managerial positions at General Electric, Triumph Group, and most recently Dallas Airmotive where he served as site manager in Lafayette, Louisiana. Yost holds a bachelor's degree in manufacturing technology from Southwestern College and a master's degree in business administration from Friends University.

PAS Technologies Inc. (www.pas-technologies.com) is a privately held corporation headquartered in North Kansas City, Missouri specializing in providing cost-effective repair and overhaul solutions for the aerospace and industrial markets. By using innovative and proprietary high-technology repair processes, along with repair solutions licensed from OEMs, the Company saves its customers from having to purchase costly replacement parts. The broad range of components serviced includes gas turbine engines, critical airframe parts, gates and seats used in oil fields and industrial components used in other high-wear, high-heat, and corrosive environments.
