JIM CAMERON NAMED BUSINESS UNIT MANAGER FOR PAS TECHNOLOGIES HILLSBORO FACILITY

Kansas City, MO., – December 15, 2006 – PAS Technologies Inc. announced the appointment of Jim Cameron to the position of Business Unit Manager. Cameron will be responsible for the day-to-day management of the overhaul business units at the company’s facility located in Hillsboro, Ohio. He will report to Dan Smith, general manager. Cameron was formerly product line manager for the overhaul business unit.

“Jim brings a very strong and broad-based knowledge of management and engineering to this position,” said Smith. “I am confident his experience and leadership will help our highly skilled sales and operations teams consistently exceed customer expectations while achieving our growth and profitability goals for 2007 and beyond.”

Cameron joined PAS Technologies in 1999 as process engineer and has worked in a number of key capacities within the company during his career. He holds a master’s degree in Industrial Engineering from the University of Cincinnati.

PAS Technologies Inc. (www.pas-technologies.com) is a privately held corporation headquartered in North Kansas City, Missouri specializing in providing cost-effective repair and overhaul solutions for the aerospace and industrial markets. By using innovative and proprietary high-technology repair processes, along with repair solutions licensed from OEMs, the Company saves its customers from having to purchase costly replacement parts. The broad range of components serviced includes gas turbine engines, critical airframe parts, gates and seats used in oil fields and industrial components used in other high-wear, high-heat, and corrosive environments.
