PAS TECHNOLOGIES ANNOUNCES NEW SENIOR SALES APPOINTMENTS FOR INDUSTRIAL GAS TURBINE MARKET

Kansas City, MO., – August 14, 2007 – PAS Technologies Inc, has announced two new senior appointments within its industrial gas turbines (IGT) business. Robert J. Loffredo has joined the company as vice president of business development for industrial gas turbines and Robert Yoo has been appointed director, business development for industrial gas turbines. “Their leadership will be instrumental in the company’s continued expansion and long-term strategic growth,” stated Robert Weiner, president and chief executive officer of PAS Technologies. “Their focus will be on development of new business opportunities to expand PAS Technologies’ IGT product and services business to realize our global sites future growth and becoming an even stronger competitor in the Americas market.”

Robert Loffredo has worked in the industrial gas turbine power generation market for more than 40 years. His experience at companies of varying size include Pratt & Whitney Aircraft’s Turbo Power & Marine Division, Penseke Power, International Systems and Gas Turbine Corporation, and most recently owner of Poseidon Power LLC providing specialized gas turbine sales from components to complete power plants. As vice president of business development, Mr. Loffredo will be responsible for developing new business opportunities in the Americas.

Robert Loffredo

Robert Yoo joins PAS Technologies as director of business development for industrial gas turbines following a successful career with major gas turbine manufacturers. Mr. Yoo brings more than 40 years senior management experience in the industrial gas turbine sector involved in field service and sales/marketing. He began his career as a field service representative for Pratt & Whitney Turbo Power & Marine Systems. He also held senior marketing positions for Gas Turbine Corporation, Greenwich Air Services, GE Engine Service, TC Power and International Turbine Services Inc. Prior to

Robert Yoo

joining PAS Technologies, Mr. Yoo was most recently vice president of Poseidon Power LLC. Yoo is responsible for expanding sales of industrial gas turbine repairs across the Americas.

“We are very pleased to have secured such high caliber individuals and look forward to a rapid advancement into the industrial gas turbine market. Loffredo and Yoo are strong team builders who understand our products, and the opportunities in the industrial power market,” stated Brian Rasmussen, vice president of sales and marketing of PAS Technologies. “Their solid industry experience makes them both a great fit for serving PAS Technologies customers and future customers in the Americas.”

A privately held corporation headquartered in North Kansas City, Missouri, PAS Technologies Inc. (www.pas-technologies.com), specializes in providing cost-effective repair and overhaul solutions for the aerospace and industrial markets. By using innovative and proprietary high-technology repair processes, along with repair solutions licensed from OEMs, the company saves its customers from having to purchase costly replacement parts. It services a broad range of components, including gas turbine engines, critical airframe parts, gates and seats used in oil fields, specialized provider of services to the power generation industry, and components used in other industrial high-wear, high-heat and highly corrosive environments.
