PAS TECHNOLOGIES ANNOUNCES MARK HUI APPOINTED SENIOR MANAGER SALES & MARKETING, ASIAN SURFACE TECHNOLOGIES

Kansas City, MO., – March 18, 2008 – PAS Technologies Inc., has hired Mark Hui as senior manager, sales and marketing for Asian Surface Technologies Pte Ltd. In this role, Mark will have responsibility for the sales and marketing activities of PAS Technologies in the Asia-Pacific region and sales responsibility for Asian Surface Technologies Pte. Ltd (AST), the Singapore-based joint venture of PAS Technologies, SIA Engineering Company and Pratt & Whitney.

Mark Hui

Mr. Hui will report to Thomas Tan, senior vice president for PAS Technologies and managing director for AST. Mr. Hui replaces Eric Yeo who assumes the role of senior manager oil field and gas.

Mr. Hui has been in the aviation business for over 25 years. He started as an airframe and engine technician working in the Singapore Airforce. Upon his release from the airforce; he embarked on a sales career spanning 20 years working for companies likes Pratt & Whitney, Volvo Aero and Messier-Bugati-Tracer Corporation in the Asia-Pacific Region. His diverse sales background spans a wide segment of the aviation industry which include engine parts repair, engine overhauled services and parts sales as well as services of aircraft wheels and brakes. His knowledge and strong customer relationship in the Asia-Pacific region will help PAS gain a stronger foothold in the region.

Mr. Hui earned his first Engineering qualification after four years at the Air Engineering Training Institute, Republic of Singapore. He also holds a Diploma in Sales and Marketing from the Marketing Institute of Singapore.

News Release

For Immediate Release

Asian Surface Technologies Pte. Ltd, is a Singapore-based joint venture company between PAS Technologies, SIA Engineering Company, and Pratt & Whitney. The company provides repair and overhaul of aviation components for commercial aircraft as well as high performance surface coatings and finishing for oilfield and aviation OEM components.

A privately held corporation headquartered in North Kansas City, Missouri, PAS Technologies Inc. (www.pas-technologies.com), specializes in providing cost-effective repair and overhaul solutions for the aerospace and industrial markets. By using innovative and proprietary high-technology repair processes, along with repair solutions licensed from OEMs, the company saves its customers from having to purchase costly replacement parts. It services a broad range of components, including gas turbine engines, critical airframe parts, gates and seats used in oil fields, specialized provider of services to the power generation industry, and components used in other industrial high-wear, high-heat and highly corrosive environments.
