## **PAS TECHNOLOGIES NAMES PETER MAYER DIRECTOR PROCUREMENT AND LOGISTICS**

**Kansas City, Mo. – April 9, 2007** – PAS Technologies Inc., a leading supplier of maintenance, repair and overhaul services (MRO) of aviation engine components, today announced it had selected Peter Mayer to take the newly created position of director of procurement and logistics. In this role, he will be responsible for all aspects of supply chain management, including business development, inventory, logistics and channels of distribution, forecasting, production planning, supply chain initiatives, and flow and processes management. He will report to Philip Milazzo, senior vice president and general manager. Mayer comes to PAS Technologies from Chemtura Corporation where he was global director, supplies and services.

In making the announcement, PAS President and Chief Executive Officer, Robert B. Weiner, said, “We are extremely pleased to have Peter joining the PAS team. In the competitive world of aerospace, how a company handles its supply chain and plans for what it needs to satisfy customer engine builds is critical. Peter’s knowledge and talent will provide us the advantage we need to meet our mission requirements better than before.”

Mr. Weiner went on to explain that besides the normal supplier and materials management functions, Mayer will expand the job to encompass an increased emphasis on strategic partnerships and supplier interactions, and global supply chain initiatives. The objective of this new position is to improve the performance of the entire supply chain, including procurement, manufacturing and distribution, and materials management, to be more responsive to customer and supplier needs and raise efficiency through better decision-making and cross-functional coordination.

Mr. Mayer comes to PAS Technologies with over ten years of supply chain management experience in various consumer industries as well as pharmaceutical, chemical and financial services. He holds a
