## **PHILIP MILAZZO NAMED SENIOR VICE PRESIDENT AND GENERAL MANAGER AT PAS TECHNOLOGIES**

**Kansas City, Mo. – April 9, 2007** – PAS Technologies, Inc., announced today that Philip Milazzo has joined the Company as the senior vice president and general manager. In his new role, Milazzo has responsibility for the growth and productivity of operations and supply chain management of PAS Technologies domestic business comprised of five operating locations including North Kansas City, Missouri; Tulsa, Oklahoma; Miramar, Florida; Hillsboro, Ohio; and Phoenix, Arizona. Milazzo replaces Jim Andrews, who recently accepted the position of vice president business development.

*Philip Milazzo*

Prior to joining PAS Technologies, Milazzo was the vice president of Americas Supply Chain Operations, for Biolab, Inc., based in Atlanta, Georgia. Milazzo spent over five years with Exide Technologies as vice president global, QA, Lean Manufacturing, Recycling Operations. He has over 18 years of senior-level leadership experience in supply chain strategies for companies in the retail, wholesale and consumer packaged good industries. He earned his Bachelor of Arts degree in management from Louisiana Tech University, Ruston, Louisiana.

“Phil brings to this position vast operations experience, contagious and driven exceptional leadership style, plus a demonstrated ability to develop high performance teams and an unwavering commitment to lean manufacturing,” said Robert B. Weiner, president and chief executive officer of PAS Technologies. “He is a great addition to an already strong leadership team and brings with him a customer’s perspective and a solid understanding of quality, safety and operational excellence.”

Mr. Milazzo commented, “To keep PAS Technologies performing well, we have very aggressive goals for improving its growth and productivity. I am excited about the opportunity to be a part of this growth

mode and to lead the functional discipline needed to achieve these goals in the operations, sourcing and supply chain management functions.”

PAS Technologies Inc. ([www.pas-technologies.com](http://www.pas-technologies.com)) is a privately held corporation headquartered in North Kansas City, Missouri specializing in providing cost-effective repair and overhaul solutions for the aerospace and industrial markets. By using innovative and proprietary high-technology repair processes, along with repair solutions licensed from OEMs, the Company saves its customers from having to purchase costly replacement parts. The broad range of components serviced includes gas turbine engines, critical airframe parts, gates and seats used in oil fields and industrial components used in other high-wear, high-heat, and corrosive environments.
