STEVE SURRIDGE APPOINTED GLOBAL OIL AND GAS PRODUCT MANAGER FOR ASIAN SURFACE TECHNOLOGIES

Kansas City, MO., – November 7, 2006 – PAS Technologies Inc., announced that Steve Surridge, currently operations manager of Asian Surface Technologies Pte Ltd (AST), will assume the role of Global Oil and Gas Product Manager reporting to Bill Lodwick, managing director of AST. Based in Singapore, Surridge will be responsible for aggressively expanding business relationships with regional and global oil and gas customers, identifying new growth opportunities and the strategies needed to broaden the depth and breadth of services offered to customers.

Larry Lau, AST sales and marketing manager, will now focus full time on aviation repair, overhaul, and coatings. Linda Lim, customer service, will continue to report to Larry.

“This newly created position will allow AST to better serve our customers and markets by expanding our oil and gas market coverage globally and increasing coverage for aviation repair, overhaul, and coatings,” said Lodwick. “Steve is well known and respected in the Oil and Gas Community, and we look forward to him leveraging his expertise and relationships to benefit our customers and the Company.”

Surridge has 30 years experience with surface technologies companies in the United Kingdom (UK) and Singapore including over eight years with AST. He has extensive experience in the oil and gas business that includes key responsibilities in Sales, Marketing, and Operations. While in the UK, Steve set up an oil and gas business and most recently in Singapore had both sales and operations management responsibility for the petrochemical product lines.

Asian Surface Technologies Pte Ltd, is a Singapore-based joint venture company between PAS Technologies, SIA Engineering Company, and Pratt & Whitney. The company provides repair and overhaul of aviation components for commercial aircraft as well as high performance surface coatings and finishing for oilfield and aviation OEM components.
