PAS TECHNOLOGIES PROMOTES THOMAS TAN MANAGING DIRECTOR FOR ASIAN SURFACE TECHNOLOGIES

Kansas City, Mo. – July 16, 2007 – PAS Technologies Inc., has promoted Thomas Tan as managing director for Asian Surface Technologies Pte. Ltd (AST), the Singapore-based joint venture of PAS Technologies, SIA Engineering Company and Pratt & Whitney. This role is in addition to his current duties as vice president Asia-Pacific sales and marketing for PAS Technologies Inc. Based in Singapore, Mr. Tan will be responsible for the integration and alignment of efforts between PAS Technologies Inc and Asian Surface Technologies Pte. Ltd to maximize growth opportunities in this region.

Thomas Tan

"To achieve our goal of improving profitability, we must continue to focus on our operational efficiency and capitalize on emerging technologies. Thomas will be a key asset to help us get there," stated Robert Weiner, president and CEO, PAS Technologies Inc. "Thomas is a great addition to PAS Technologies because he understands our industry and will help us view the business from our customers' perspective."

Before joining PAS Technologies, Mr. Tan was marketing and customer service manager for Eagle Services Asia, responsible for the new franchise business providing aviation engine wash services. Prior to that, he held a series of sales and management positions at Pratt & Whitney and Turbine Overhaul Services Pte. Ltd (TOS), a joint venture between Pratt & Whitney and Singapore Technologies Aerospace. He began his aerospace career 25 years ago with Singapore Aerospace. Mr. Tan holds a Bachelor of Business degree in marketing from Royal Melbourne Institute of Technology University, Australia and a diploma in electronics engineering from Caulfield Institute of Technology, Melbourne, Australia.

A privately held corporation headquartered in North Kansas City, Missouri, PAS Technologies Inc. (www.pas-technologies.com), specializes in providing cost-effective repair and overhaul solutions for the aerospace and industrial markets. By using innovative and proprietary high-technology repair processes,

along with repair solutions licensed from OEMs, the company saves its customers from having to purchase costly replacement parts. It services a broad range of components, including gas turbine engines, critical airframe parts, gates and seats used in oil fields, specialized provider of services to the power generation industry, and components used in other industrial high-wear, high-heat and highly corrosive environments.

Asian Surface Technologies Pte. Ltd, is a Singapore-based joint venture company between PAS Technologies, SIA Engineering Company, and Pratt & Whitney. The company provides repair and overhaul of aviation components for commercial aircraft as well as high performance surface coatings and finishing for oilfield and aviation OEM components.
