THOMAS TAN PROMOTED AS VICE PRESIDENT OF GLOBAL OILFIELD BUSINESS FOR PAS TECHNOLOGIES

Kansas City, MO., – November 24, 2009 – Thomas Tan has been named Vice President of Global Oilfield business for PAS Technologies, supporting strategic sales, marketing and new business development initiatives in the Americas, Asia, Europe, and the Middle East. In his new role, Thomas reports to Phil Milazzo, Executive Vice President Sales & Marketing. He also serves as Senior Vice President of Asia Pacific for PAS Technologies and as Managing Director of Asian Surface Technologies Pte. Ltd. (AST), the Singapore-based joint venture of PAS Technologies, SIA Engineering Company and Pratt & Whitney reporting to Robert Weiner, President and CEO of PAS Technologies Inc.

Thomas Tan

Tan, based in Singapore, has worldwide oversight for growing the Oilfield business in all aspects through product enhancements and innovations, improving operational efficiencies across the global organizational structure, and executing key bolt-on acquisitions that are complementary to existing product lines. This responsibility includes leveraging the capabilities at PAS Technologies global sites in Singapore; Ireland; Romania; Hillsboro, Ohio; and Kansas City, Missouri.

Phil Milazzo, Executive Vice President Sales & Marketing said, "We are pleased to have someone with Thomas' knowledge of the worldwide oil and gas service industry to lead the ongoing global expansion of our business. We are continuing to increase our manufacturing capabilities and capacity and we have several initiatives underway to drive the synergies of our value-adding product and service offerings. Thomas' experience in the oilfield service industry will complement the experience of our existing management team in achieving this objective."

Mr. Tan holds a Bachelor of Business degree in marketing from Royal Melbourne Institute of Technology University, Australia and a diploma in electronics engineering from Caulfield Institute of Technology, Melbourne, Australia.

Asian Surface Technologies Pte. Ltd. is a Singapore-based joint venture company between PAS Technologies, SIA Engineering Company, and Pratt & Whitney. The company provides repair and overhaul of aviation components for commercial aircraft as well as high performance surface coatings and finishing for oilfield and aviation OEM components.

PAS Technologies Inc. (www.pas-technologies.com) is a privately held corporation headquartered in North Kansas City, Missouri specializing in providing cost-effective repair and overhaul solutions for the aerospace, oilfield, and industrial markets. By using innovative and proprietary high-technology repair processes, along with repair solutions licensed from OEMs, the Company saves its customers from having to purchase costly replacement parts. The broad range of components serviced includes gas turbine engines, critical airframe parts, gates and seats used in oil fields and industrial components used in other high-wear, high-heat, and corrosive environments.
