AIR INDIA SIGNS AGREEMENT WITH PAS TECHNOLOGIES

Kansas City, MO., – February 8, 2008 – PAS Technologies Inc., announced today that it has signed a two-year agreement with Air India. Under the agreement PAS Technologies – Kansas City, will serve as the primary repair agency on selected components for Air India’s PW4056 engines.

“We are very pleased and proud that Air India has again selected PAS Technologies to provide aircraft component repair for part of their fleet,” PAS Technologies’ President and CEO Robert Weiner said.

A privately held corporation headquartered in North Kansas City, Missouri, PAS Technologies Inc. (www.pas-technologies.com), specializes in providing cost-effective repair and overhaul solutions for the aerospace and industrial markets. By using innovative and proprietary high-technology repair processes, along with repair solutions licensed from OEMs, the company saves its customers from having to purchase costly replacement parts. It services a broad range of components, including gas turbine engines, critical airframe parts, gates and seats used in oil fields, specialized provider of services to the power generation industry, and components used in other industrial high-wear, high-heat and highly corrosive environments.
