## **PAS TECHNOLOGIES SIGNS REPAIR VENDOR AUTHORISATION AGREEMENT WITH THE ENERGY BUSINESS OF ROLLS-ROYCE**

**Kansas City, MO., – December 5, 2007** – PAS Technologies Inc., announced today that the energy business of Rolls-Royce has revalidated and extended their authorization certificate for PAS Technologies Ireland Ltd.

The scope of the authorization includes Rolls-Royce Avon, Olympus, RB211, and Spey industrial engine types.

The repair and overhaul of various components, including blades and vanes, will be performed at the PAS Technologies Ireland facility located at Carrigtwohill, a world class site dedicated to hot section airfoil repair and overhaul for both industrial and aero gas turbine applications. This capability is complemented by a very extensive high technology coating capability.
